Results Your Skin Will Love

- + Relieve arthritic pain and stiffness
- + Diminish muscle and joint pain
- + Increase local blood circulation
- + Deliver oxygen and nutrients to help heal
- + Treat a variety of minor aches and pains
- + Great for post-workout soreness, backaches, accidents and sports injuries

What is LightStim?

LightStim delivers light energy in a similar way plants absorb light energy from the sun. Each LightStim device uses different wavelengths, or colors of light. LightStim LED Bed provides rejuvenating wavelengths of light energy to treat the body. Relax, listen to music or meditate while enjoying this warm, soothing and restorative treatment.
