EXPERIENCE

CLINICALLY PROVEN
TECHNOLOGY

868 Professional Grade LEDs

Designed and engineered with more than double the number of LEDs in most comparable devices, Elipsa utilizes Blue, Amber, Light Red, Dark Red, and Infrared wavelengths with LightStim MultiWave[®] Patented Technology.

Contoured for the Face

Elipsa was designed to allow ultra-close proximity to the skin for the most effective and result driven treatment. Featuring dual folding legs with a smooth articulating hinge, Elipsa is height-adjustable to fit faces of all sizes.

Reduce wrinkles on the entire face. Treat mild to moderate acne and reduce inflammation caused by acne.
