

LightStim ProPanel Pain

LightStim LED light therapy devices have been used and recommended by massage and physical therapists, chiropractors, medical doctors and wellness professionals for 20 years. Upgrade your treatment and enhance your results today.

Results Your Body Will Love

- + Soothes and calms minor aches and pains
- + Relaxes sore and tense muscles
- + Helps relieve arthritic pain and stiffness
- + Increases local blood circulation
- + Delivers oxygen and nutrients for healing and repair
- + Accelerates injury and post exercise recovery
- + Provides a soothing, relaxing client experience

What is LightStim?

LightStim delivers light energy in a similar way plants absorb light energy from the sun. Each LightStim device uses different wavelengths, or colors of light. LightStim ProPanel Pain provides therapeutic wavelengths of light energy to relieve pain and promote healing. Relax while enjoying this warm, soothing and restorative treatment.
